

Our Casuarina Kidz Choir (with Gracie our volunteer from U S on the end!) were thrilled to be asked to perform at Severin Sea Lodge Hotel recently. They were the evening entertainment and were such a hit with guests that the management have booked them for a special song and dance performance on Christmas Eve. How proud are we!

Now our boarders are back at Casuarina for the Christmas holidays the house is full and buzzing again! Rehema was last to return home having completed her final exams at High School. She's eagerly awaiting her results as wants to go to university to study to become a Kenyan Lawyer. Toby and Juma M are graduating from Primary to High School so it's all change again as another year passes and we see the children flourishing before our very eyes.

Last week at the feeding programme saw an extra 80 more orphans turn up to be fed. That's on top of our usual 500. Word obviously gets around! Despite eking out the portion sizes we ran out and 10 children went away as hungry as when they came. Their sad and disappointed faces pierce your very soul. We enjoy such a variety and abundance of food back home, especially at this time of year. It humbles my heart seeing such little ones each Saturday patiently waiting in line for this basic meal of maize and beans to fill their hungry tummies. Quite overwhelming at times.

We're so pleased to be able to offer places at Celebration High School to the older children on the feeding programme. Everything is on schedule for the opening of phase one in January. However we still need funding for 18 more orphans and disadvantaged children. I've attached our Christmas Appeal that explains more if anyone feels able to contribute or sponsor a child. If not or you have received in the post already then please ignore.

Thank you so much to everyone for your support. We really appreciate your kindness and generosity. From the children and Team we wish you all a Happy Christmas and Prosperous New Year!

God bless,

Debbie Scott-Robinson
